WORK EXPERIENCE

2024-PRESENT

HASOB INTEGRATED SERVICES - CROSS-PLATFORM MOBILE APP DEVELOPER

- Architected cross-platform mobile apps using React Native, Expo, and TypeScript, leading cross-functional teams from system design through production releases.
- Configured automated build pipelines with EAS Build and managed app distribution on Google Play Console and App Store Connect.

2025-2026

FRONTEND & MOBILE SOFTWARE ENGINEER - LAS MOBILE APP

- Engineered real-time logistics and delivery tracking interfaces using React Native, Next.js, and Tailwind CSS.
- Integrated RESTful APIs for live package location updates and route optimization, improving overall client-side app performance.

2025-2026

SOFTWARE ENGINEER - MDB & LEARNLIFT APPS

- Authored multi-tenant application architecture and developed core mobile components for Learnlift, an educational platform.
- Engineered and deployed cross-platform features and responsive UI for MDB using React Native, Expo, and Next.js.
